Dear Dean Ballan,

I have asked the New York Civil Liberties Union for assistance in connection with the ongoing violation of my right to free speech by the Second Circuit, which is using its power and authority to prevent me from offering to give a lecture/lesson on God's existence to the Columbia U. community. It occurred to me that you could be of service to the NYCLU by inviting me to give this lecture to your community.

I've attached the podcast of my oral argument before the Second Circuit (case no. 17-818), letter to U. S. House of Representatives that explains why my rights are being violated, lesson plan about God's existence, and my latest letter to the NYCLU.

Very truly yours,
David Roemer
