There are two miracles, or signs, that involve Congresswoman Pramila Jayapal of the 7th Congressional District of Washington, who is a member of the House Judiciary Committee. I filed a First Amendment lawsuit against Columbia University for declining my offer to give a lesson/lecture on God's existence. Columbia violated the academic freedom of the Columbia community because there is no other way the students and faculty could learn the rational concept of God and the argument for God's existence. The Stanford Encyclopedia of Philosophy, for example, has three long entries about God's existence (cosmological, teleological, and ontological) but none of these entries make sense.

Since Columbia is a private college, there is no cause of action. The first miracle is that the U. S. Court of Appeals for the Second Circuit nevertheless agreed to hear my oral argument on January 18, 2018. The podcast is on the Court's website.

The second miracle is that the attorney for Columbia U. announced his appearance for the President of Columbia (Lee Bollinger) one day before Mr. Bollinger read the amended complaint. I filed a motion for a default judgment, which was denied. I then filed a misconduct complaint against the district judge. The Judiciary Counsel of the Second Circuit exonerated the judge in a way that is blatantly dishonest. I then sent a four-page letter addressed to the Chairman of the House Judiciary Committee to every member of the House of Representatives about the scandal.

For the four-page letter to the House of Representatives:
